Of course! It's tense recently, we will be in trouble if we are caught!
But...didn't we agree to raise her up at whatever cost?

T/N FLAC stands for Federation of Literary and Art Circles

Listen, we were merely emotionol We have to adapt to reality!
I'm just admitted into the Municipal FLAC, it will bring me shame!
But it's my kid after all...
Why are you still hesitating!? It's just a girl! We already have a boy!

.....
Then I'll ask my second uncle if they can adopt ...
What girl? What are you doing?
Son...we...
I disagree!
Don't interupt adults, get away!
Give me my sister!

# 拜見女皇陛下

## Act.09 失敗者

Under mum and brother's insist, I stayed in this family
Li Shimin became emperor like that...
Ah I'm exhuasted Let me have a break! I'm thirsty.
Hua, brother's got some nice readings right?
You'll be in primary school next year, you can read by yourself then.
This book has no pinyin on it, I don understand
Huh? Can't read without pinyin? Haha, you'll know in two years little dumb!
历代帝王传
Biography for Emperors
Little dumb?
Hua! What're you doing?
Wait!!
熊

Brother's wrong! I apologise!
Roarwww!!
Oh right! Since you love this book so much...
Your brother I will write pinyin on this book for you! Now it's much easier to read! You see?
Are you happy now?
Yes!
Could the smiling mum be thinking "two kids are nice" back then?
Now! Let's go to your brother's room and kick that big punch bag!
Aow!!
However, days like that never came again since that day...

1992
Hey, you see
How come the meals are so low-energy recently? How can I write articles with these?
.....
How can I buy meat with your worthless articles? What do you mean!? The FLAC is having difficulties! Like if I don't! My factory just got blasted today!
Why hasn't brother come back? It's already this time...
Fighting again.
You only know about asking for meat and money every day! Must be nice to live off your wife!
If brother is here...he can try to persuade...
Lub dub

Hua?
.....?
Bro
brother
Didn't mum tell you? Your brother's gone to the free combat team, he'll be back later...
But...
Wh...
Why...
I'll go look for my brother!
Hua!
I didn't know why I had a feeling of unease suddenly...
Brother!

Park for the General Public
Brother!
Zhong ------!
Like being guided by something, I ran step by step...
Hua! Don't go to dark places!
Brother ---!
step by step...
and arrived here...

...brother.

Brother
-----!
People's Hospital
of Tanzhou
Unbelievable! Zhong is making me troubles!
It brought me much shame at my workplace!
Thanks for my superiors at FLAC, otherwise the operation fee is a huge problem! What a loss!
Have you said enough of that nonsense?
Ever since last night Zhong had the accident, you've been pulling that "so troublesome" "costs me so much money" face. You didn't care about Zhong's injuries at all...

What do you mean? Your relatives could not spare a dime!
It's not a money issue! You're not qualified to be a father!
My parents quarrel spreaded to the entire corridor
I didn't know everything had started to change
出所
police station
What? The witness refused to admit?
Yes, although we faund that girl, but her family refused ta cooperate
denied they were concerned...
Stop kidding me! My son saved her!
Madam! Calm down!

As far as I know, that girl's parents denied that she passed through the park on that day...
Due to lack of evidence, we could not persuade them no matter how we try...
Then tell me that girl's address, I'll talk to them directly!
Madam, put that aside.
Those hooligans said it's your son who provoked them, so it's just a simple brawl...
Wa!
Slam!哐!
Bring me to...
those bastards!

I want to find a chick for disco...
Ah, so fucking bothering, why do they lock us here? They have no evidence at all.
I want to blackmail for some meat. haha!
Dawei, you're first time here, don't panic. When asked just say as we taught you.
.....
What's that talking? Quiet!
You are the one who injured my son right?
Sorry aunt, he hit and provoked us first...
Nonsense! You were bullying a girl! My son was hurt when saving her!

Madam...!
You bastards! Admit what you did like a man!
Don't say that aunt, we're gaad guys
Yeah, we often help grannies cross the raad
You hooligans! I'll find that girl now and ask her to testify!!
And send you all to jail!!!
Oh that's bad, attempted rape is a quite seious crime.
You scaring us big bro?
Yes, that girl last nothing
Hehe... Let's place a bet.
Our fate is in that girl's hands now...

People's Hospital of Tanzhou

Sorry, I can't let you in.
Then could you let your daughter out to testify?
How many times do I have to repeat? My daughter has nothing to do with it.
The police has also came here, please don't disturb us any more!
Sir, my son has been a busybody since before.
But he saved your daughter this time and is heavily injured.
Just a word to the police! We don't want any reward!
Sorry, we are not concerned we can't do it
Sir! Have some conscience!
Please leave! Don't make a fuss!
.....

Lanlan, what do you intend to do?
Mum, let me out, I'll go and testify!
You're still young, there're many things you don't know! Please listen to mum, ok? You're going to college, don't make troubles...
The boy who saved me is injured, I can't be so heartless!
Lanlan...
How am I supposed to be a teacher in the future? I'm going out!
Lanlan!!
Here, mum will help you pack. Leave the outside to dad...
Mum! How can you be so cruel!

Lanlan! My dear child!
?
Mum is begging you! Don't go!
Mum? What're you going? Please get up!
Mum! You're making it difficult for me! We are less than fair to that boy!
Mum knows, mum knows it all. We'll repay them in after-life even as their cows and horses!
But not now, you're still young, any rumour can happen if this spreads out! What would your life be in that case?
You know gossips are powerful, mum can't let you suffer from those

Lanlan, endure... everything will be over...
But... mum...
I still want to become a police!
When I recover, I'll revenge! I'll catch hundreds of times as many bad people! Count those hooligans as the first ones!
OK!
Mum... I'm not going out...

Ahhh!
How boring it was! Again it's big bro being helpful! Solved everything with a phone call!
It's nothing in the end~
Dawei, we won the bet.
.....
Hehehe, actually...
Before this time...
We have won countless times.

Hey,
little bro.
!!
Little bro,
I'm just here
to tell you...

You did not only lose...
but lost completely...
To be continued

Like a real man.

There are several things I feel like need explanation, I'll take the liberty of adding another page here.

First is the "giving Hua away" stuff. It was the one-child policy. So by "troubles" it could mean an unbearable fine or losing chance of being employed by the public sector (almost all jobs back then were offered by public sector, private economy is yet to be legalised). The government would not take the child away or put the parents into jail, like someone fabricated.

Another is the "Federation of Literary and Art Circles". It is a "creative union" as invented by the soviets, so the government can employ artists together at those kinds of organisations. For professional writers back then that may be the only place to get employed apart from "Writers Association", a Chinese variation of soviet "Writers' Union".

It may be difficult to sympathise with the characters without knowing the historical background, hope it's not a big trouble for you.
